Forecast for Saturday 19 Jun 2021

Weather: Dry through the morning and afternoon. Whilst there will be a fair amount of cloud at times, some bright or sunny spells are likely, especially until mid-afternoon. There is an increasing risk of showery rain pushing up from the south during the evening as easterly winds freshen.

Chance of cloud free mountain/hill tops above 600m: 50% until mid-morning, 80% until dusk, reducing to 50% as showers develop further during the late evening.

Visibility: Patchy to broken cloud with bases at around 500 metres, especially for eastern slopes until mid-morning. Then all summits expected to be cloud free, with good visibility until late evening, when broken cloud with bases around 500 metres returns from the south, in association with showers.

Meteorologist's View

Whilst the sunshine may be rather hazy at times, UV levels are expected to be high or very high, therefore plentiful sun protection is recommended. Some uncertainty exists in the timing of arrival of showers from the south later in the evening.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Thu 17 Jun 2021	0mm	0mm	0mm

Forecast for Sunday 20 Jun 2021

Weather: Cloudy and wet on Sunday morning, with outbreaks of rain, some of which could be heavy and thundery. Perhaps a few brighter interludes by the afternoon, but the risk of a heavy shower remains.

Maximum wind: East or northeast, 25-30 mph, strongest over summits.

Chance of cloud free mountain/hill tops above 600m: 30% becoming 60% as the more persistent rain clears north.

Visibility: Fairly extensive cloud through the morning, with bases in the range 400-500 metres, most likely lowest further east. Cloud should become rather more broken by the afternoon, with bases lifting to 500-700 metres. Best conditions likely further west. Visibility tempered at times at lower levels due to rain.

Temperature: **Valleys:** Plus 12 Celsius rising to plus 16 Celsius by the afternoon.
At 600m: Plus 9 Celsius rising to plus 13 Celsius.
Freezing level: Above the summits.
